

Save the Date: BPA Utility Round Tables

The recent Efficiency Exchange offered an excellent opportunity to interact in person, but smaller regional gatherings provide a unique chance to discuss more localized issues. To help bolster this effort BPA is organizing a series of regional utility round tables to be conducted in the later summer and early fall in five different Northwest regions. Each meeting will feature informative presentations and provide an open forum for discussions on program development.

Specific agendas and schedules for these round tables are still being finalized: you can expect more details to follow. If you have questions about these meetings or suggestions for content, please contact your Energy Efficiency Representative.

Region	Dates	Host	Location
